RECEIVED

REQUEST FOR HEARING

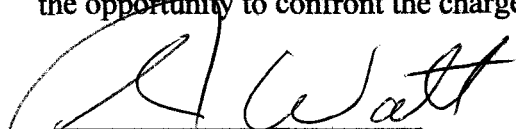

Respondent Tim Watt respectfully requests a hearing.

As excuse for not having not timely filed this request Respondent offers the following:

1. Respondent did not sell any shares or receive any loans within the State of Arizona or elsewhere.
2. Respondent believed that the allegations regarding fraud were so obviously unfounded that a solution would be found by negotiating with the Arizona Corporate Commission, which has proved not to be the case.
3. That the Temporary Order has been placed on the internet with the allegations of fraud together with various statements made, and admitted to by Respondent, regarding the time frame for placing the mine in production, estimated cost of production and profitability, the goal of having a market cap of \$100 million dollars within a year etc., all of which Respondent believes to be true and which are not challenged by the Commission, but which, appearing in the same context as the fraud allegations, suggest that the entire project is a scam.
4. That Respondent believes that the posting of Temporary Order on the internet containing the unproved and unfounded fraud allegations and unrelated factual statements with the innuendo attached, to the itemized charges of specific acts of fraud have had and will continue to have a deleterious effect on his reputation even if Respondent is fully exonerated of all charges.

5. That while no order by a hearing examiner can erase from the public domain the stigma of having been charged with committing fraudulent acts that anyone by googling the internet will obtain together with the innuendo, a well framed decision might, to some degree, serve to partially restore his reputation.

Wherefore your Respondent respectfully requests, in the interests of justice, that he be provided the opportunity to confront the charges made in a hearing.
